[Preview only]
1 General Provisions
2 Terms
3 Basic Requirements
3.1 General Requirements
3.2 Seismic Precaution Classification and Precautionary Criterion
3.3 Actions and Action Effect Combination
4 Self- Weight
4.2 Liquefiable Soil Foundation
4.3 Hydrology and Silt
4.4 Weather
4.5 Other Influencing Factors
4.6 Mixing Water
4.7 Admixtures
5 Storage Load and Crowd Load
5.2 Crowd Load
5.3 Seismic Earth Pressure
5.4 Earthquake Hydrodynamic Pressure
5.5 Foundation Bearing Capacity and Bank Stability
5.6 Structure Check
6 Hoisting Machinery Load
6.2 Characteristic Value of Load
6.3 High-piled Dolphin Wharf
6.4 Sheet Pile Wharf
6.5 Sloping Wharf and Floating Wharf
6.6 Breakwater
6.7 Navigation Lock
6.8 Wharf Equipment and Auxiliary Facilities
7 Train Load
7.2 Plane Layout and Dimension Design of Dredging Area
7.3 Dredging Modes
7.4 Calculation of Dredging Quantities

7.5 Capital Dredging
7.6 Maintenance Dredging
7.7 Dredging of Polluted Soil
7.8 Rock Dredging
7.9 Trial Dredging
8 Vehicle Load
8.2 Dredge Pump Characteristics
8.3 Pipeline Characteristics
8.4 Determination of Dredge Pump and Pipeline Working Area
8.5 Booster Pump Transportation
8.6 Crack Prevention Measures for Mass Concrete
8.7 Construction Defects Repairing
9 Cargo Cable Load
9.2 Dredged Material Assessment
9.3 Dredged Material Utilization
9.4 Dredged Material Disposal
9.5 Dredged Material Treatment
9.6 Unbounded Prestressing

1 Foreword

JTS 176-2020 was issued by Ministry of Transport on 30 October 2020 and has been in force since 1 December 2020.

The JTS prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 27 pages in English translation.

2 Scope Preview

This standard is applicable to the design of newly built, rebuilt and expanded ports for dangerous cargo container yards in coastal and inland ports. The design of the port's dangerous cargo container yard shall not only conform to the provisions of this standard, but also conform to the provisions of relevant national standards.

JTS 176-2020 falls under ICS 93.140, in the field of civil engineering.

This catalogue holds 48 other JTS standards in that field.

In this catalogue, JTS standards carry edition years from 2007 to 2024.

3 About this standard

Issued by: Ministry of Transport

English translation: about 27 pages

Chinese original: about 41,494 characters

4 Related standards

Standards on related subjects:

JTS/T 184-2021 - Inland waterway information exchange standard (with text description)

JTS/T 183-2021 - Guidelines for Ecological Protection, Restoration and Landscape Design of Water Transport Projects (with descriptions)

JTS/T 177-2021 - Design specification for seaport anchorage

5 Classification and status

International classification (ICS): 93.140

Chinese Standard Classification (CCS): P 67

Prefix JTS: mandatory standard.
