1 Foreword

JTS/T 106-2016 was issued by Ministry of Transport on 29 January 2016 and has been in force since 1 May 2016.

The JTS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 25 pages in English translation.

2 Scope Preview

This standard is applicable to energy conservation assessment of new construction, alteration and expansion of port and navigation building works.

JTS/T 106-2016 is filed under Chinese Standard Classification P 67, in the field of engineering construction.

This catalogue holds 85 other JTS/T standards without an ICS number.

In this catalogue, JTS/T standards carry edition years from 2013 to 2024.

3 About this standard

Issued by: Ministry of Transport

English translation: about 25 pages

Chinese original: about 37,355 characters

4 Related standards

Standards on related subjects:

JTS/T 111-2024 - Provisions on the compilation of quotas for water transport projects (with explanations of the provisions)

JTS/T 116-2019 - Calculation rules for water transport engineering surveying costs

5 Classification and status

Chinese Standard Classification (CCS): P 67

Prefix JTS/T: recommended standard.
