1 Foreword

JTS/T 178-2020 was issued by Ministry of Transport on 1 December 2020.

The JTS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 42 pages in English translation.

2 Scope Preview

This standard is applicable to the clean production design of newly built, rebuilt and expanded port projects. The clean production design of port engineering shall not only meet the requirements of this standard, but also meet the requirements of relevant national standards.

JTS/T 178-2020 falls under ICS 93.140, in the field of civil engineering.

This catalogue holds 28 other JTS/T standards in that field.

In this catalogue, JTS/T standards carry edition years from 2013 to 2024.

3 About this standard

Issued by: Ministry of Transport

English translation: about 42 pages

Chinese original: about 63,683 characters

4 Related standards

Standards on related subjects:

JTS/T 184-2021 - Inland waterway information exchange standard (with text description)

JTS/T 183-2021 - Guidelines for Ecological Protection, Restoration and Landscape Design of Water Transport Projects (with descriptions)

JTS/T 177-2021 - Design specification for seaport anchorage

5 Classification and status

International classification (ICS): 93.140

Chinese Standard Classification (CCS): P 67

Prefix JTS/T: recommended standard.
