1 Foreword

JTS/T 241-2020 was issued by Ministry of Transport on 25 November 2020.

The JTS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 38 pages in English translation.

2 Scope Preview

This standard is applicable to the detection and monitoring of underwater soft platoons, projectiles, buildings, reef clearing and dredging in waterway improvement projects. In addition to the requirements of this standard, the underwater inspection and monitoring work of the waterway improvement project shall also comply with the provisions of the current relevant national standards.

JTS/T 241-2020 falls under ICS 93.140, in the field of civil engineering.

This catalogue holds 28 other JTS/T standards in that field.

In this catalogue, JTS/T standards carry edition years from 2013 to 2024.

3 About this standard

Issued by: Ministry of Transport

English translation: about 38 pages

Chinese original: about 57,585 characters

4 Related standards

Standards on related subjects:

JTS/T 247-2023 - Water transport engineering geotechnical test code

JTS/T 246-2023 - Technical regulations for detection and monitoring of bucket foundation structures in water transportation projects

5 Classification and status

International classification (ICS): 93.140

Chinese Standard Classification (CCS): P 67

Prefix JTS/T: recommended standard.
