1 Foreword

JTS/T 277-2019 was issued by Ministry of Transport on 29 August 2019 and has been in force since 1 November 2019.

It replaces the earlier edition JTS 277-2014.

The JTS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

JTS/T 277-2019 is filed under Chinese Standard Classification P 67, in the field of engineering construction.

This catalogue holds 85 other JTS/T standards without an ICS number.

In this catalogue, JTS/T standards carry edition years from 2013 to 2024.

3 About this standard

Issued by: Ministry of Transport

English translation: about 49 pages

Chinese original: about 73,730 characters

Supersedes the earlier edition JTS 277-2014.

4 Related standards

Standards on related subjects:

JT/T 496-2004 - High-density polyethylene silicon duct for highway communication conduit

JTS/T 273-2024 - Water transport engineering survey quota

JTS/T 267-2021 - Quality Inspection Standards for Inland River Digital Waterway Construction Projects (with text description)

5 Classification and status

Chinese Standard Classification (CCS): P 67

Prefix JTS/T: recommended standard.
