8.5 Procedure for determination of unit cell parameters of cubic crystals

## 1 Foreword

JY/T 0218-2007 was issued by Ministry of Education of the People's Republic of China on 21 January 2008 and has been in force since 1 June 2008.

It replaces the earlier edition JY 218-1987.

The JY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

## 2 Scope Preview

This standard specifies the classification and naming breadboard circuit, requirements, test methods, inspection rules and signs, labels, instructions for use, packaging, transport and storage. This standard applies to teaching high school physics experiment circuit boards.

JY/T 0218-2007 is filed under Chinese Standard Classification Y 54, in the field of light industry and consumer goods.

This catalogue holds 89 other JY/T standards without an ICS number.

In this catalogue, JY/T standards carry edition years from 2002 to 2026.

## 3 About this standard
