Table of Contents

[Preview only]
1 Scope
2 Normative references
3 Classification
4 Requirements
4.1 Qualitative analysis of phases
4.2 Quantitative analysis of phase
4.3 Determination of grain size and lattice distortion
4.4 Determination of unit cell parameters of cubic crystals
4.5 Solving the crystal structure from ab initio polycrystalline diffraction data
4.6 High and low temperature diffraction
5 Reagents and materials
5.1 Standard material
5.2 Organic solvents
5.3 Sieves
5.4 Sample preparation tools
5.5 Microscope
5.6 Specimen plate
6 Instruments
6.1 Composition of the instrument
6.2 Verification or calibration
6.3 XZGJ Higher Education Management Data Subset
6.4 XZSF Teacher Education Management Data Subset
7 Samples
7.1 Pretreatment of samples
7.2 Filling of the specimen plate
7.3 Judge whether the specimen plate is available
8 Analysis steps
8.1 Startup and parameter setting of the instrument
8.2 Steps of phase qualitative analysis
8.3 Steps for phase quantitative analysis
8.4 Determination of grain size and lattice distortion by linewidth method

8.5 Procedure for determination of unit cell parameters of cubic crystals

1 Foreword

JY/T 0393-2007 was issued by Ministry of Education of the People's Republic of China on 21 January 2008 and has been in force since 1 June 2008.

It replaces the earlier edition JY 166-1984; JY 167-1984.

The JY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the classification and naming of teaching bracket, requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to schools teaching experiment with all kinds of stents. This standard does not apply to schools teaching titration experiment station, single function, such as a tripod stand.

JY/T 0393-2007 is filed under Chinese Standard Classification Y 51, in the field of light industry and consumer goods.

This catalogue holds 89 other JY/T standards without an ICS number.

In this catalogue, JY/T standards carry edition years from 2002 to 2026.

3 About this standard

Issued by: Ministry of Education of the People's Republic of China

English translation: about 7 pages

Chinese original: about 9,945 characters

Supersedes the earlier edition JY 166-1984; JY 167-1984.

4 Related standards

Standards on related subjects:

JY/T 0587-2020 - General rules for X-ray polycrystalline diffractometry

SN/T 0869-2017 - Determination of ascorbic acid in beverage for export

QB/T 1337-2010 - Pencil sharpener
