1 Foreword

JY/T 0395-2007 was issued by Ministry of Education of the People's Republic of China on 21 January 2008 and has been in force since 1 June 2008.

It replaces the earlier edition JY 227-1987; JY 228-1987.

The JY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the natural frequency of 256Hz, 512Hz tuning fork and the natural resonance frequency of 440Hz tuning fork classification and nomenclature, requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to physics experiments using a tuning fork with a resonance box, does not apply to electrical vibration of the tuning fork.

JY/T 0395-2007 falls under ICS 03.180, in the field of services and company organization.

This catalogue holds 130 other JY/T standards in that field.

In this catalogue, JY/T standards carry edition years from 2002 to 2026.

3 About this standard

Issued by: Ministry of Education of the People's Republic of China

English translation: about 5 pages

Chinese original: about 7,762 characters

Supersedes the earlier edition JY 227-1987; JY 228-1987.
