What this standard covers

This standard specifies the general requirements for fire safety management of laboratories in colleges and universities, fire safety responsibilities, fire safety systems and management, fire safety measures, preparation and drills of fire extinguishing and emergency evacuation plans, fire accident disposal and aftermath, and reward and punishment systems. This standard applies to the fire safety management of laboratories and buildings in ordinary colleges and universities (including higher vocational schools) and adult colleges and universities (hereinafter referred to as schools). Secondary vocational schools can refer to the implementation.
