What this standard covers

This standard defines the framework for the Excellent Engineer Education Certification Standard, specifying requirements in six dimensions: college positioning and organization, quality assurance and continuous improvement, cooperation and openness, work-study alternation training, university-enterprise faculty development, and engineer career development. This standard applies to various university-affiliated Excellent Engineer Colleges that train engineering master's and doctoral students, as well as Excellent Engineer Colleges led by enterprises.

Document data

International classification (ICS): 03.180.

Chinese classification (CCS): A18.

Estimated length of the Chinese original: 14,151 words.
