1 Foreword

KA 23-2025 was issued by National Mine Safety Administration on 1 September 2025 and has been in force since 1 November 2025.

It replaces the earlier edition AQ 2005-2005.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies requirements for the operation management, flood prevention and drainage, seismic protection, monitoring, safety inspections, classification and remediation of hazards, emergency management, reclamation, closure, and records management of waste rock dumps at metal and non-metal mines. It applies to waste rock dumps at metal and non-metal mines.

KA 23-2025 is filed under Chinese Standard Classification Z 61, in the field of environmental protection.
