1 Foreword

KA 24-2025 was issued by National Mine Safety Administration on 1 September 2025.

It has been in force since 1 November 2025.

The document runs to 10 pages in English translation.

2 Scope Preview

This standard specifies safety requirements for the design, construction, operation, and maintenance of drilling works, solution extraction and injection systems, and auxiliary production facilities for in-situ leaching uranium mines (hereinafter referred to as "ISL uranium mines"). This document applies to the design, construction, operation, and maintenance processes of ISL uranium mines.

KA 24-2025 falls under ICS 13.100, in the field of environment and health protection, safety.

This catalogue holds 27 other KA standards in that field.
