1 Foreword

KA/T 12-2023 was issued by State Mine Safety Supervision Administration on 26 October 2023 and has been in force since 31 January 2024.

The KA/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 11 pages in English translation.

2 Scope Preview

This standard specifies the terms and definitions, basic requirements, detection methods, data collection and processing, interpretation of detection data and submission of detection results for radio wave perspective detection methods in coal mining working faces. This standard is suitable for radio wave perspective survey operations on coal mine working faces.
