1 Foreword

KA/T 3-2023 was issued by State Mine Safety Supervision Administration on 26 October 2023 and has been in force since 31 January 2024.

It replaces the earlier edition MT/T 674-1997.

The KA/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the basic provisions for production mine drainage systems, drainage pump rooms, water silos, ditches, sedimentation tanks, drainage pipelines, drainage equipment, power supply and distribution, control, lighting, communications, ground discharge and environmental protection and other technical requirements. This standard applies to drainage work during the production period of underground coal mines.

KA/T 3-2023 falls under ICS 73.020, in the field of mining and minerals.

This catalogue holds 19 other KA/T standards in that field.

In this catalogue, KA/T standards carry edition years from 2023 to 2026.

3 About this standard

Issued by: State Mine Safety Supervision Administration

English translation: about 7 pages

Chinese original: about 11,152 characters

Supersedes the earlier edition MT/T 674-1997.

4 Related standards

Standards on related subjects:

MT/T 1091-2008 - Standard for exploration and evaluation of hydrogeology, engineering geology and environment geology in coal beds

DZ/T 0200-2002 - Specification for iron, manganese and chromium mineral exploration

DZ/T 0206-2002 - Specifications for kaolinite, bentonite, refractory. Clay mineral exploration

KA/T 2-2023 - Technical specification for advanced regional treatment of limestone aquifer under coal seam

KA/T 11-2023 - Method of monitoring for behavior of rock pressure about the roadway in coal mines

KA/T 10-2023 - Technical specifications for groundwater management model of coal mine area

5 Classification and status

International classification (ICS): 73.020

Chinese Standard Classification (CCS): D 14

Prefix KA/T: recommended standard.
