What this standard covers

This standard specifies the low short cycle veneer pressing machine (hereinafter referred to as veneer press) parameters, requirements, inspection rules and signs, packaging, transport and storage. This standard applies to the substrate as particleboard, medium density fibreboard, plywood and other wood-based panels affixed to the surface of the coating (melamine impregnated paper, pre-paint paper, printing paper and veneer and other materials) processing single veneer pressing machine.

Document data

International classification (ICS): 79.120.99.

Chinese classification (CCS): B97.

Estimated length of the Chinese original: 9,985 words.
