What this standard covers

This standard specifies the oxygen pressure swing adsorption with activated carbon for refining requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to coal or wood as raw material for the production of hydrogen pressure swing adsorption purification device columnar activated carbon.

Document data

International classification (ICS): 67.220.20.

Chinese classification (CCS): X41.

Estimated length of the Chinese original: 11,159 words.
