Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard was proposed by the Forestry Department of Hebei Province.

This standard is under the jurisdiction of the State Forestry Administration.

Introduction

Ulmuspumila 'Zhonghuajinye' is a forestry science research institute of Hebei Province and a green gardener in Shijiazhuang City.

The new color plant variety cultivated by Cheng Co., Ltd. passed the appraisal of scientific and technological achievements of Hebei Province on June 26, 2004, and was awarded in 2006.

The national new plant variety protection, the new variety was named "beauty " (variety rights number.20060008), in December.2009 passed the national forest Muliang Kind of examination and approval, the name of the approved species is "Zhonghua Golden Leafhopper", and the good species number is "National S-SV-UP-006-2009"; therefore, the variety has "Chinese Golden Leaf" the two names of "" and "beauty " appear in the name of "Chinese Golden Leaf (???) " in the scientific research materials.

The name "beauty " appears, and in the market application, it is more often referred to as "Chinese Golden Leaf ". In this regulation, it is simply referred to as "Chinese Golden Leaf". elm".

The variety is protected by the new national plant variety, and the variety is carried out in

accordance with the Regulations of the People's Republic of China on the Protection of New Varieties of Plants.

When producing and distributing, it must be authorized by the variety owner.
