### Foreword

LY/T 2500 "Live Wild Animal Transport Container" is divided into terms, labels and logos, general rules, general inspection of box containers and international Special Requirements for the Design and Production of Various Live Animal Transport Containers as stipulated by the Air Transport Association (IATA) Regulations for the Transport of Living Animals (LAR) Multi-part publication. The following plans are currently planned.

--- Part 1. Terminology;

--- Part 2. Labels and logos;

--- Part 3. General;

--- Part 4. General inspection of box containers;

--- Part 5. Steel and wood transport boxes for large carnivores;

--- Part 6. Steel and wood transport boxes for crocodile animals;

This part is the second part of LY/T 2500.

This part is drafted in accordance with the rules given in GB/T 1.1-2009.

This section uses the redrafting method to modify the use of IATALAR..2010 Live Animal Rules Chapter 9.

Compared with IATALAR..2010 Chapter 9, this section has the following adjustments in structure.

--- According to the rules of GB/T 1.1-2009, a chapter of the scope, chapter number "1", set the second chapter terms and definitions, gives IATALAR. Some terms and definitions in 2010 to facilitate understanding of this section;

---IATALAR. Sections 9.1, 9.2, and 9.3 in Chapter 9 of 2010 are adjusted to chapter headings in this section, and other headings are in in this section, the section is adjusted to the section and the title of the article. For details, see Appendix A.

The technical differences between this part and IATALAR. Chapter 9 of 2010 and their reasons are as follows.

- Removed the suggestive instructions in IATALAR. Chapter 9 of 2010;
- Increased waterproofing requirements for labels;
- Added orange live wildlife transport container logo for toxic animals or aggressive ferocious animal transport containers (see 6.1.2.2 and 6.2.2);
- Added the Chinese version of the live wildlife transport container logo to meet the requirements of domestic live wildlife transport (see 5.1.2) 6.1.2.2 and 6.1.2.4);
- gives the color RGB color code value of the identification color to ensure the consistency of the color of the logo when printing;
- Increased the requirements for exporting live wildlife transport containers while pasting Chinese and English logos, so that goods can be transported domestically at the time, domestic employees are identified (see 6.2.1).

This section has made the following editorial changes.

- When interpreting, explain and explain statements or paragraphs, only retain the required and recommended statements, and use GB/T 1.1-Auxiliary verbs specified in 2009;
- The packaging container is modified into a shipping container, referred to as "container";
- Modified some of the article types and auxiliary verbs.

This part is proposed and managed by the National Wildlife Conservation Management and Management Standardization Technical Committee (SAC/TC369).

## 1 Scope

This section specifies the general requirements, labels and logos for the design and manufacture of labels and logos for live wildlife transport containers.

rule.

This section applies to the design, production and specification of labels and labels for live wildlife transport containers. Other live animal transport containers Labels and logos are also available for reference.

## 2 Normative references

The following documents are indispensable for the application of this document. For dated references, only dated versions apply to this article.

Pieces. For undated references, the latest edition (including all amendments) applies to this document.

LY/T 2500.1 Live wildlife transport containers - Part 1. Terminology
