### What this standard covers

This standard specifies the terms and definitions, model preparation methods, basic parameters, performance requirements and test methods, signs, instructions for use, packaging, transportation and storage of diesel-powered crawler-type tree-cutting machines (hereinafter referred to as tree-cutting machines). This standard is applicable to chain, shovel and circular knife crawler trees for transplanting live standing trees (trees) with a diameter of 600 mm to 1600 mm.

### Document data

International classification (ICS): 65.060.80.

Chinese classification (CCS): B95.

Estimated length of the Chinese original: 12,165 words.
