What this standard covers

This standard specifies the test method for cutting efficiency and cutting fuel consumption rate of a portable brush cutter and lawn mower powered by a gasoline engine (hereinafter referred to as "brush cutter and lawn mower"). This standard is applicable to portable brush cutters and lawn mowers powered by gasoline engines. Brush cutters and lawn mowers powered by other internal combustion engines can also be used.

Document data

International classification (ICS): 65.060.80.

Chinese classification (CCS): B95.

Estimated length of the Chinese original: 9,999 words.
