What this standard covers

This standard specifies the access specifications and requirements for non-confidential system interfaces such as personnel information, organizational structure, message to-do, electronic document exchange, administrative approval matters, etc. of the civil aviation comprehensive office platform. This standard applies to the Civil Aviation Administration of China (hereinafter referred to as the "Civil Aviation Administration"), the Civil Aviation Regional Administration of China, the Civil Aviation Safety Supervision Administration of China and administrative agencies at all levels and directly affiliated civil aviation units, airlines, airports and other units. The civil aviation e-government integrated office platform is a system connected through a non-confidential network (hereinafter referred to as the "external system").
