Table of Contents

[Preview only]
1 Scope
2 Normative references
2.1 Terms
2.2 Abbreviations
3 Terms and definitions
3.3 Design flow 6
3.4 Classification of air traffic grade 7
3.5 Climate zone 7
3.6 Pavement zones and pavement structure thickness 8
4 Basic requirements
4.1 Purpose
4.2 Design standard requirements
4.3 Verification method requirements
4.4 Design qualification requirements
4.5 Requirements for Operational Evaluation
4.6 Other functional layers
4.7 Runway shoulder
5 Technical requirements
5.1 Test environment requirements
5.2 General test condition requirements
5.3 Test equipment requirements
5.4 Overview of test items
5.5 Cable laying
5.6 Manufacturing process
6 Test method
6.1 Maintainability test
6.2 Visual inspection
6.3 Power test
6.4 Service continuity assessment
6.5 Integrity assessment
6.6 Accuracy test

6.7 Usability Evaluation
6.8 Benchmark receiver test
6.9 Benchmark receiver antenna test
7 Inspection rules
7.1 Ground taxi test
7.2 Circular flight test
7.3 Arc flight test
7.4 Horizontal flight test
7.5 Approach flight test
8 Packaging, transportation and storage
8.1 General requirements
8.2 Detection and evaluation of the old pavement
8.3 Old pavement treatment before overlay
8.4 Structure combination and thickness calculation of asphalt overlay pavement
8.5 Design measures of non-stop asphalt overlay
9 Multi-point positioning system settings
9.1 System room
9.2 Power supply
9.3 Lightning protection and grounding

1 Foreword

MH/T 4063.1-2026 was issued by Civil Aviation Administration of China on 11 January 2026.

It has been in force since 1 February 2026.

The MH/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

MH/T 4063.1-2026 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 805 other MH/T standards.

Of the 247 MH/T standards that do carry an ICS number, 88 (36%) fall under ICS 03, in the field of services and company organization.

3 About this standard

Issued by: Civil Aviation Administration of China

4 Related standards

Standards on related subjects:

GB/T 23420-2009 - Aircraft - Wide body aircraft lower deck container/pallet loader - Functional requirements

MH/T 4062-2026 - Technical requirements for network access of 5G aeronautical mobile airport communications system

MH/T 4061-2026 - Specification of 5G aeronautical mobile airport communications system network configuration and construction

MH/T 4043-2026 - Technical requirements for civil aviation X-band surface movement radar

5 Classification and status

Chinese Standard Classification (CCS): V 54

Prefix MH/T: recommended standard.
