What this standard covers

This standard specifies the flameproof terminal low voltage reactive power compensation terms, Products, technical requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to the coal mine in parallel with the motor in place to improve the local circuit power factor compensation terminal compensator.

Document data

International classification (ICS): 29.260.20; 73.100.99.

Chinese classification (CCS): K35.

Estimated length of the Chinese original: 9,987 words.
