What this standard covers

This standard specifies the technical parameters and test methods for the determination of a microscope photometer vitrinite reflectance to be achieved. This standard applies before use, tungsten halogen lamp as the light source of the microscope photometer tests and maintenance after use, acceptance.

Document data

International classification (ICS): 73.040.

Chinese classification (CCS): D26.

Estimated length of the Chinese original: 12,188 words.
