What this standard covers

This standard specifies the mine explosion-proof special type lead-acid battery power supply unit (hereinafter referred to as " power device") product classification, requirements, test methods, inspection rules, signs, packaging, transport and storage. This standard applies to the power supply unit for use with coal mine methane or coal dust explosion hazard.

Document data

International classification (ICS): 29.220; 73.100.99.

Chinese classification (CCS): K81.

Estimated length of the Chinese original: 16,163 words.

Supersedes the earlier edition MT 334-1993.
