### What this standard covers

This standard specifies the mine ventilation network solver scope of the program, terms and definitions, basic functions, ventilation network mathematical model, solver principles, solver accuracy and error analysis. This standard applies to the mine ventilation network under steady-state solution in the preparation computer program. This standard does not apply to the mine ventilation network solution for non- steady-state count of writing.

### Document data

International classification (ICS): 13.100.

Chinese classification (CCS): D09.

Estimated length of the Chinese original: 9,931 words.

Supersedes the earlier edition MT/T 442-1995.
