**ENERGY INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

NB/T 10096-2018

**Guidelines for safety management of power construction
projects**

电力建设工程施工安全管理导则

Issued on: October 29, 2018

Implemented on: January 1, 2019

Issued by: National Energy Administration of the PRC

Table of Contents

1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Basic requirements	3
5 Construction safety management planning	3
5.1 Preparation requirements	3
5.2 Construction safety management planning content of the project owner	4
5.3 Construction safety management planning content of the survey and design unit	5
5.4 Construction safety management planning content of the construction contractor	6
5.5 Construction safety management planning content of the supervision unit	8
5.6 Construction safety management planning content of the EPC general contractor	10
6 Work safety management system	13
6.1 Work safety committee	13
6.2 Work safety assurance system	14
6.3 Work safety supervision and management organization	15
7 Work safety responsibilities and duties	15
7.1 Basic requirements	15
7.2 Work safety responsibilities of participating units	15
7.3 Work safety duties of key positions	18
8 Work safety management rules	22
8.1 Preparation of work safety management rules	22
8.2 Issuance, publicity and implementation of work safety management rules	24
8.3 Review and revision of work safety management rules	24
9 Work safety target management	25
9.1 Formulation of work safety targets of the construction project	25
9.2 Formulation and issuance of work safety management indicators of other participating units	25
9.3 Supervision, inspection and assessment of work safety targets of participating units	25
10 Work safety education and training	25
10.1 Basic requirements for work safety education and training	25
10.2 Basic requirements for work safety education and training of principal persons in charge and work safety management personnel	25

10.3 Basic requirements for work safety education and training of employees	25
10.4 Supervision and inspection of work safety education and training	26
11 Work safety expenses	26
11.1 Basic requirements	26
11.2 Scope of use of work safety expenses	26
11.3 Extraction of work safety expenses	27
11.4 Use of work safety expenses	27
11.5 Supervision and inspection of the management of work safety expense use	27
12 Construction safety technical management	27
12.1 Basic requirements	27
12.2 General requirements	28
12.3 Preparation of the safety technical chapter in the construction organization design	28
12.4 Management of special construction schemes	29
12.5 Requirements for preparation of safety technical measures	30
12.6 Content and methods of safety technical briefing	31
12.7 Supervision and inspection of safety technical management	31
13 Safety management of construction machinery and equipment	31
13.1 Basic management of construction machinery and equipment	31
13.2 Operation management of construction machinery and equipment	33
13.3 Safety supervision and inspection of construction machinery and equipment	36
14 Operation safety	37
14.1 Basic content	37
14.2 Working environment	37
14.3 Working conditions	37
14.4 Working behavior	37
15 Safety inspection	38
15.1 Types and methods of safety inspection	38
15.2 Content and requirements of safety inspection	38
16 Safety risk control and hidden danger investigation and treatment	38
16.1 Basic content	38
16.2 Safety risk control	38
16.3 Hidden danger investigation and treatment	40
17 Subcontracting safety management	41
17.1 Basic content	41

17.2 Subcontracting plan management	42
17.3 Subcontracting plan implementation	42
17.4 Qualification requirements and resource allocation of subcontractors	42
17.5 Subcontracting supervision and management	42
17.6 Subcontracting evaluation management	43
18 Occupational health management	43
18.1 Basic occupational health management	43
18.2 Occupational health management activities	43
19 Emergency management	45
19.1 Basic requirements	45
19.2 Emergency management organization system	45
19.3 Establishment of the emergency plan system	46
19.4 Emergency management activities	48
19.5 Emergency rescue	51
20 Accident reporting, investigation and handling	51
20.1 Accident reporting	51
20.2 Accident response	52
20.3 Accident investigation and handling	52
21 Performance evaluation and continual improvement	53
21.1 Basic requirements	53
21.2 Organization of performance evaluation	53
21.3 Rewards and penalties of performance evaluation	54
21.4 Continual improvement	55
22 Safety archives management	55
22.1 Basic content	55
22.2 Basic requirements	55
22.3 Classification of safety technical archives	56
22.4 Principles of safety technical archives management	58
Annex A (informative) Sub-projects with relatively high danger	59
Annex B (informative) Sub-projects with relatively high danger exceeding a certain scale	61
Annex C (informative) Important temporary facilities, important construction procedures, special operations and dangerous work items	63
Annex D (informative) Classification of common construction machinery and equipment	64
Annex E (informative) Catalogue of safety facilities	65

Annex F (informative) Sub-projects requiring a safety construction work permit	66
Bibliography	68

Foreword

This document was issued on 29 October 2018 by the National Energy Administration of the PRC and takes effect on 1 January 2019.

It is a NB/T standard: recommended rather than compulsory, but it is the text a Chinese reviewer applies when assessing a submission.

It is classified under ICS 27.100, Chinese classification K46.

This standard was drafted in accordance with the rules given in GB/T 1.1-2009 Directives for standardization - Part 1: Structure and drafting of standards.

This standard was proposed by and is under the jurisdiction of the Electric Power Safety Supervision Department of the National Energy Administration.

Main drafting organization of this standard: China Electric Power Construction Association.

Participating drafting organizations of this standard: State Grid Corporation of China, China Southern Power Grid Co., Ltd., China Datang Corporation Ltd., Power Construction Corporation of China, China Energy Engineering Group Co., Ltd., China Huadian Corporation Ltd., State Power Investment Corporation Limited, China Resources Power Holdings Co., Ltd., Neimenggu Nengyuan Jianshe Touzi (Jituan) Youxian Gongsi, Beijing Nengyuan Jituan Youxian Zeren Gongsi and Zhonghe Jiangsu Hedian Youxian Gongsi.

Main drafters of this standard: You Jing, Wang Guang, Guo Junfeng, Chen Bo, Li Lianyou, Gao Tongbiao, Zhang Zhentao, Long Xianming, Fang Shaozeng, Wang Xue, Zhang Sanqi, Ge Zejun, Liu Donggen, Ma Zonglei, Yang Yanjun, Peng Kaiyu, Wang Tie, Xiao Qifeng, Lang Debin, Wang Xin, Shan Zhihui, Shao Qingye, Zou Huaijun, Qian Fangchun, Tang Xiaoyong, Wo Zhonglei, Sun Jianjun, Du Xueyun, Xie Yihui, Huang Shixin, Liang Zhongjun, Chen Weiguo and Xie Meisheng.

Main reviewers of this standard: Tong Guangyi, Zhang Yangmin, Xu Haiming, Xu Xinfeng, Luo Wenlong, Ying Xichun, Xiao Haibao, Peng Fei, Du Yong, Cheng Yan, Fang Jun, Zhang Jie, Huangfu Jingjing, Wu Zhifu, Li Qinglin, Yuan Taiping, Gao Xiaolin, Yang Liyong, Zhou Wei, Lu Qiusheng, Li Chenglin, Gao Yongxiang, Xu Hexian, Hou Shiying, Zhou Xiaofei, Xin Hua, Peng Xiaojun, Yang Dawei, Zhou Shijie, Qiu Yongnian, Sun Shijie, Li Yahui, Wang Xiaojiang, Guo Zhe, Chen Xiaoxue and Zhu Yuping.

1 Scope

NB/T 10096-2018 sets out how construction safety is managed on power construction
