What this standard covers

This standard specifies the pressurized water reactor nuclear power plant reactor coolant pump main flange with manganese-nickel-molybdenum steel forgings manufacturing, trial, inspection and acceptance requirements. This section applies to pressurized water reactor nuclear power plant reactor coolant pump main flange 16MnNmo alloy steel forgings.

Document data

International classification (ICS): 77.140.85.

Chinese classification (CCS): H43.

Estimated length of the Chinese original: 19,188 words.
