Replacing NB/T 20358.5-2015

**Cost estimation of nuclear power plant construction project -
Part 5: Pipe installation engineering for nuclear island**

核电厂建设工程预算定额 第5部分：核岛管道安装工程

Issued on: March 22, 2018

Implemented on: September 1, 2018

Issued by: National Energy Administration of the PRC

Table of Contents

Explanatory notes to the volume	1
Chapter 1 Pipe installation	4
Explanatory notes to Chapter 1	5
1.1 Stainless steel pipe	6
1.1.1 Nuclear Class 1 stainless steel pipe (argon arc welding)	6
1.1.2 Nuclear Class 1 stainless steel pipe (combined argon arc and electric welding)	8
1.1.3 Nuclear Class 2 stainless steel pipe (argon arc welding)	12
1.1.4 Nuclear Class 2 stainless steel pipe (combined argon arc and electric welding)	24
1.1.5 Nuclear Class 3 stainless steel pipe (argon arc welding)	32
1.1.6 Nuclear Class 3 stainless steel pipe (combined argon arc and electric welding)	40
1.1.7 Non-nuclear class stainless steel pipe (argon arc welding)	44
1.1.8 Non-nuclear class stainless steel pipe (combined argon arc and electric welding) ..	50
1.2 Carbon steel pipe	52
1.2.1 Nuclear Class 2 carbon steel pipe (argon arc welding)	52
1.2.2 Nuclear Class 2 carbon steel pipe (combined argon arc and electric welding)	62
1.2.3 Nuclear Class 3 carbon steel pipe (argon arc welding)	74
1.2.4 Nuclear Class 3 carbon steel pipe (combined argon arc and electric welding)	82
1.2.5 Non-nuclear class carbon steel pipe (argon arc welding)	96
1.2.6 Non-nuclear class carbon steel pipe (combined argon arc and electric welding) ...	101
1.3 Main steam and main feedwater pipe	105
1.3.1 Main steam pipe (combined argon arc and electric welding)	105
1.3.2 Main feedwater pipe (combined argon arc and electric welding)	107
1.4 Assembly welding of super pipe	109
1.5 Galvanized steel pipe	111
1.5.1 Galvanized steel pipe (threaded connection)	111
1.5.2 Galvanized steel pipe (flanged connection)	113
1.6 Copper pipe installation	114
1.7 Non-metallic pipe installation	115
1.7.1 Glass fibre reinforced plastic pipe installation (adhesive bonding)	115
1.7.2 Rigid plastic pipe installation (adhesive bonding)	119
Chapter 2 Pipe fitting installation	122
Explanatory notes to Chapter 2	123

2.1 Stainless steel pipe fittings	124
2.1.1 Nuclear Class 1 stainless steel pipe fittings (argon arc welding)	124
2.1.2 Nuclear Class 1 stainless steel pipe fittings (combined argon arc and electric welding)	125
2.1.3 Nuclear Class 2 stainless steel pipe fittings (argon arc welding)	129
2.1.4 Nuclear Class 2 stainless steel pipe fittings (combined argon arc and electric welding)	136
2.1.5 Nuclear Class 3 stainless steel pipe fittings (argon arc welding)	143
2.1.6 Nuclear Class 3 stainless steel pipe fittings (combined argon arc and electric welding)	149
2.1.7 Non-nuclear class stainless steel pipe fittings (argon arc welding)	152
2.1.8 Non-nuclear class stainless steel pipe fittings (combined argon arc and electric welding)	156
2.2 Carbon steel pipe fittings	160
2.2.1 Nuclear Class 2 carbon steel pipe fittings (argon arc welding)	160
2.2.2 Nuclear Class 2 carbon steel pipe fittings (combined argon arc and electric welding)	166
2.2.3 Nuclear Class 3 carbon steel pipe fittings (argon arc welding)	178
2.2.4 Nuclear Class 3 carbon steel pipe fittings (combined argon arc and electric welding)	184
2.2.5 Non-nuclear class carbon steel pipe fittings (argon arc welding)	198
2.2.6 Non-nuclear class carbon steel pipe fittings (combined argon arc and electric welding)	201
2.3 Installation of main steam and main feedwater pipe fittings	206
2.3.1 Main steam pipe fitting installation (combined argon arc and electric welding)	206
2.3.2 Main feedwater pipe fitting installation (combined argon arc and electric welding)	207
2.4 Galvanized pipe fittings (threaded connection)	208
2.5 Copper pipe fitting installation	210
2.6 Sprinkler system nozzle installation	211
Chapter 3 Valve installation	212
Explanatory notes to Chapter 3	213
3.1 Installation of stainless steel welded valves	214
3.1.1 Nuclear Class 1 stainless steel welded valve installation (argon arc welding)	214
3.1.2 Nuclear Class 1 stainless steel welded valve installation (combined argon arc and electric welding)	215
3.1.3 Nuclear Class 2 stainless steel welded valve installation (argon arc welding)	217

3.1.4 Nuclear Class 2 stainless steel welded valve installation (combined argon arc and electric welding)	220
3.1.5 Nuclear Class 3 stainless steel welded valve installation (argon arc welding)	223
3.1.6 Nuclear Class 3 stainless steel welded valve installation (combined argon arc and electric welding)	226
3.1.7 Non-nuclear class stainless steel welded valve installation (argon arc welding)	229
3.1.8 Non-nuclear class stainless steel welded valve installation (combined argon arc and electric welding)	232
3.2 Installation of stainless steel flanged valves	234
3.2.1 Nuclear Class 1 stainless steel flanged valve installation	234
3.2.2 Nuclear Class 2 stainless steel flanged valve installation	236
3.2.3 Nuclear Class 3 stainless steel flanged valve installation	239
3.2.4 Non-nuclear class stainless steel flanged valve installation	242
3.3 Installation of carbon steel welded valves	245
3.3.1 Nuclear Class 2 carbon steel welded valve installation (argon arc welding)	245
3.3.2 Nuclear Class 2 carbon steel welded valve installation (combined argon arc and electric welding)	247
3.3.3 Nuclear Class 3 carbon steel welded valve installation (argon arc welding)	251
3.3.4 Nuclear Class 3 carbon steel welded valve installation (combined argon arc and electric welding)	253
3.3.5 Non-nuclear class carbon steel welded valve installation (argon arc welding)	256
3.3.6 Non-nuclear class carbon steel welded valve installation (combined argon arc and electric welding)	258
3.4 Installation of carbon steel flanged valves	260
3.4.1 Nuclear Class 2 carbon steel flanged valve installation	260
3.4.2 Nuclear Class 3 carbon steel flanged valve installation	266
3.4.3 Non-nuclear class carbon steel flanged valve installation	272
3.5 Installation of threaded valves	276
3.5.1 Stainless steel threaded valve installation	276
3.5.2 Carbon steel threaded valve installation	278
3.6 Valve hydrostatic testing and safety valve setting	280
3.6.1 Hydrostatic test of stainless steel valves	280
3.6.2 Hydrostatic test of carbon steel valves	284
3.6.3 Setting of safety valves and pressure reducing valves	290
3.7 Installation of remote valve operating devices	294
3.8 Fabrication, installation and removal of temporary spool pieces replacing control valves	295

3.8.1 Stainless steel temporary spool pieces replacing control valves	295
3.8.2 Carbon steel temporary spool pieces replacing control valves	299
Chapter 4 Flange installation	305
Explanatory notes to Chapter 4	306
4.1 Stainless steel butt-welding flanges	307
4.1.1 Nuclear Class 1 stainless steel butt-welding flange (argon arc welding)	307
4.1.2 Nuclear Class 1 stainless steel butt-welding flange (combined argon arc and electric welding)	308
4.1.3 Nuclear Class 2 stainless steel butt-welding flange (argon arc welding)	312
4.1.4 Nuclear Class 2 stainless steel butt-welding flange (combined argon arc and electric welding)	315
4.1.5 Nuclear Class 3 stainless steel butt-welding flange (argon arc welding)	318
4.1.6 Nuclear Class 3 stainless steel butt-welding flange (combined argon arc and electric welding)	320
4.1.7 Non-nuclear class stainless steel butt-welding flange (argon arc welding)	322
4.1.8 Non-nuclear class stainless steel butt-welding flange (combined argon arc and electric welding)	324
4.2 Carbon steel butt-welding flanges	326
4.2.1 Nuclear Class 2 carbon steel butt-welding flange (argon arc welding)	326
4.2.2 Nuclear Class 2 carbon steel butt-welding flange (combined argon arc and electric welding)	327
4.2.3 Nuclear Class 3 carbon steel butt-welding flange (argon arc welding)	333
4.2.4 Nuclear Class 3 carbon steel butt-welding flange (combined argon arc and electric welding)	335
4.2.5 Non-nuclear class carbon steel butt-welding flange (argon arc welding)	339
4.2.6 Non-nuclear class carbon steel butt-welding flange (combined argon arc and electric welding)	341
4.3 Stainless steel socket-welding flanges	342
4.3.1 Nuclear Class 1 stainless steel socket-welding flange (argon arc welding)	342
4.3.2 Nuclear Class 2 stainless steel socket-welding flange (argon arc welding)	343
4.3.3 Nuclear Class 3 stainless steel socket-welding flange (argon arc welding)	344
4.3.4 Non-nuclear class stainless steel socket-welding flange (argon arc welding)	345
4.4 Carbon steel socket-welding flanges	346
4.4.1 Nuclear Class 2 carbon steel socket-welding flange (argon arc welding)	346
4.4.2 Nuclear Class 3 carbon steel socket-welding flange (argon arc welding)	347
4.4.3 Non-nuclear class carbon steel socket-welding flange (argon arc welding)	348
4.5 Carbon steel threaded flange installation	349
