**ENERGY INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

NB/T 20358.6-2018

Replacing NB/T 20358.6-2015

**Cost estimation of nuclear power plant construction project -
Part 6: Ventilation and air-conditioning installation engineering
for nuclear island**

核电厂建设工程预算定额 第6部分：核岛通风空调安装工程

Issued on: March 22, 2018

Implemented on: September 1, 2018

Issued by: National Energy Administration of the PRC

Table of Contents

Volume description	1
Chapter 1 Fabrication and installation of stainless steel plate ventilation ducts	5
Chapter notes	6
1.1 Fabrication of stainless steel ducts (seam locking)	7
1.1.1 Circular duct fabrication, seam locking, delta = 1.2 mm or less	7
1.1.2 Rectangular duct fabrication, seam locking, delta = 1.2 mm or less	9
1.2 Fabrication of stainless steel ducts (welding)	11
1.2.1 Circular duct fabrication, welding, delta = 2 mm or less	11
1.2.2 Rectangular duct fabrication, welding, delta = 2 mm or less	13
1.2.3 Circular duct fabrication, welding, delta above 2 mm	15
1.2.4 Rectangular duct fabrication, welding, delta above 2 mm	17
1.3 Installation of stainless steel ducts (seam locking)	19
1.3.1 Circular duct installation, seam locking, delta = 1.2 mm or less	19
1.3.2 Rectangular duct installation, seam locking, delta = 1.2 mm or less	20
1.4 Installation of stainless steel ducts (welding)	21
1.4.1 Circular duct installation, welding, delta = 2 mm or less	21
1.4.2 Rectangular duct installation, welding, delta = 2 mm or less	22
1.4.3 Circular duct installation, welding, delta above 2 mm	23
1.4.4 Rectangular duct installation, welding, delta above 2 mm	24
Chapter 2 Fabrication and installation of carbon steel ventilation ducts	25
Chapter notes	26
2.1 Fabrication of galvanized thin steel plate ducts	28
2.2 Fabrication of carbon steel ducts (welding)	30
2.3 Installation of galvanized thin steel plate ducts	38
2.4 Installation of carbon steel ducts (welding)	40
2.5 Installation of carbon steel damper penetration pieces (circular)	44
2.6 Installation of flexible connections and expansion joints	45
2.6.1 Flexible connections and expansion joints without flanges	45
2.6.2 Flexible connections and expansion joints with flanges	46
2.7 Installation of flexible joints	47
2.8 Fabrication and installation of duct inspection openings	48
2.9 Fabrication and installation of temperature and air volume measuring openings	49

2.10 Prefabrication and installation of main ducts	50
2.11 Fabrication and installation of supports	52
2.12 Fabrication and installation of static pressure boxes	54
Chapter 3 Fabrication and installation of regulating dampers	55
Chapter notes	56
3.1 Fabrication of regulating dampers	57
3.1.1 Fabrication of three-way regulating dampers for rectangular ducts	57
3.2 Installation of regulating dampers	58
3.2.1 Air heater upstream valve	58
3.2.2 Air heater bypass valve	59
3.2.3 Circular flap-type starting valve	60
3.2.4 Duct butterfly damper	61
3.2.5 Airtight inclined gate damper	62
3.2.6 Three-way regulating damper for rectangular ducts	63
3.3 Installation of special valves dedicated to nuclear power	64
3.3.1 Safety class pneumatic fast isolation valve	64
3.3.2 Safety class shut-off type isolation valve	65
3.3.3 Safety class balancing valve	66
3.3.4 Safety class electromagnetic fast isolation valve	67
3.3.5 Nuclear class check valve	68
3.3.6 Non-nuclear class check valve	69
3.3.7 Tornado damper	70
3.3.8 Nuclear class fire damper	71
3.3.9 Non-nuclear class fire damper	72
3.3.10 Smoke exhaust valve	73
3.3.11 Opposed-blade isolation valve	74
3.3.12 Motor-operated air damper	75
3.3.13 Non-nuclear class pneumatic air damper	76
3.3.14 Isolation and regulating air damper	77
3.3.15 Non-nuclear class shut-off type isolation valve	78
3.3.16 Non-nuclear class balancing valve	79
3.3.17 Gravity relief valve	80
Chapter 4 Fabrication and installation of air terminals	81
Chapter notes	82
4.1 Fabrication of air terminals	83

4.1.1 Mesh air terminal T262	83
4.2 Installation of air terminals	84
4.2.1 Louver air terminal	84
4.2.2 Rectangular supply air terminal	85
4.2.3 Square diffuser	87
4.2.4 Circular and streamlined diffuser	88
4.2.5 Combined supply and exhaust air terminal	89
4.2.6 Mesh air terminal	90
4.2.7 Steel louver window	91
4.2.8 Plastic-coated steel air terminal	92
4.2.9 Air terminal (aluminium)	93
4.2.10 Installation of COLT air terminal (stainless steel)	94
Chapter 5 Fabrication and installation of cowls	96
Chapter notes	97
5.1 Umbrella-shaped cowl T609, fabrication and installation	98
5.2 Conical cowl T610, fabrication and installation	99
5.3 Cylindrical cowl T611, fabrication and installation	100
5.4 Cylindrical cowl drip tray T611, fabrication and installation	101
5.5 Cowl guy ropes	102
5.6 Cowl flashing	103
Chapter 6 Fabrication and installation of hoods and silencers	104
Chapter notes	105
6.1 Belt guard T108, fabrication and installation	106
6.2 Motor rain cover T110, fabrication and installation	107
6.3 Installation of silencers	108
Chapter 7 Fabrication and installation of ventilation ducts in fire-resistant material	109
Chapter notes	110
7.1 Fabrication and installation of fire-resistant ducts	111
7.1.1 Fabrication of fire-resistant ducts	111
7.1.2 Installation of fire-resistant ducts	112
Chapter 8 Installation of glass fibre reinforced plastic ventilation ducts and components	113
Chapter notes	114
8.1 Installation of glass fibre reinforced plastic ventilation ducts	115
8.1.1 Circular GRP duct (delta = 4 mm or less)	115

8.1.2 Circular GRP duct (delta above 4 mm)	116
8.1.3 Rectangular GRP duct (delta = 4 mm or less)	117
8.1.4 Rectangular GRP duct (delta above 4 mm)	118
8.1.5 GRP stack, diameter 4 m	119
8.2 Installation of components for GRP ventilation ducts	121
8.2.1 Umbrella-shaped cowl	121
8.2.2 Conical cowl	122
8.2.3 Cylindrical cowl	123
Chapter 9 Fabrication and installation of aluminium plate ventilation ducts and components	124
Chapter notes	125
9.1 Fabrication of aluminium plate ducts	126
9.2 Installation of aluminium plate ducts	128
9.3 Fabrication and installation of aluminium plate duct ventilation components	130
9.3.1 Umbrella-shaped cowl	130
9.3.2 Circular flange (gas welding, manual argon arc welding)	131
9.3.3 Rectangular flange (gas welding, manual argon arc welding)	132
Chapter 10 Fabrication and installation of air-conditioning components and equipment supports	133
Chapter notes	134
10.1 Steel plate airtight door	135
10.2 Steel plate water baffle	137
10.3 Water filter	138
10.4 Overflow tray	139
10.5 Electric heater casing	140
10.6 Metal air-conditioner casing	141
10.7 Equipment support	142
Chapter 11 Installation of ventilation and air-conditioning equipment	143
Chapter notes	144
11.1 Installation of air handling units	145
11.2 Installation of filters and iodine adsorbers	147
11.3 Installation of coils	150
11.4 Installation of electric heaters	151
11.5 Installation of fan boxes	152
11.6 Installation of cooling fans	154
11.7 Installation of air heaters (coolers)	156
