CCS P00/09

NB

**ENERGY INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

NB/T 51051-2016

**Standard for data management of construction project in coal
mine**

煤炭建设工程资料管理标准

Issued on: February 5, 2016

Implemented on: July 1, 2016

Issued by: National Energy Administration of the PRC

Table of Contents

1 General Provisions	1
2 Terms	2
3 Basic Requirements	4
4 Classifying and Numbering	6
4.1 Classifying	6
4.2 Numbering	6
5 Construction Unit's Data Management	8
6 Undertaking Construction Project Unit's Data Management	9
6.1 General Requirement	9
6.2 Management Data	9
6.3 Technical Data	10
6.4 Quality Control Data	10
7 Supervision Unit's Data Management	11
8 Collecting and Arranging the Engineering Data	12
9 Handing over the Engineering Data	14
Appendix A Drawing As-built Drawings	15
Appendix B Methods of Folding As-built Drawings	18
Appendix C Contents of Classifying and Arranging with the Data of Construction Unit	23
Appendix D Contents of Classifying and Arranging with the Management Data of Undertaking Construction Project Unit	28
Appendix E Contents of Classifying and Arranging with the Technical Data of Undertaking Construction Project Unit	30
Appendix F Contents of Classifying and Arranging with the Quality Control Data of Undertaking Construction Project Unit	31
Appendix G Contents of Classifying and Arranging with the Data of Supervision Unit	43
Explanation of Wording in This Standard	45
Reference Standards	46
Addition: Explanation of Clauses	47

Foreword

This document was issued on 5 February 2016 by the National Energy Administration of the PRC and takes effect on 1 July 2016.

It is a NB/T standard: recommended rather than compulsory, but it is the text a Chinese reviewer applies when assessing a submission.

It is classified under ICS 73.020, Chinese classification P00/09.

This standard was prepared in accordance with the requirements of the Notice of the National Energy Administration on Issuing the First Batch of Energy Sector Standard Formulation (Revision) Plans for 2013 (Guo Neng Ke Ji [2013] No. 235). Its preparation was organized by the China Coal Construction Association, and it was jointly drafted by Chongqing Juneng Construction (Group) Co., Ltd., SPIC Inner Mongolia Energy Co., Ltd., Beijing Zhuye Zhiyuan Software Development Co., Ltd. and other units concerned.

During the preparation of this standard, the drafting group carried out extensive investigation and research, conscientiously summarized many years of practical experience, and solicited the opinions of coal construction units and experts in various forms. The text was finalized after repeated discussion, study, revision and improvement, and a final review.

This standard consists of 9 chapters and 7 appendices. Its main contents include: general provisions, terms, basic requirements, classifying and numbering, data management of the construction unit, data management of the undertaking construction unit, data management of the supervision unit, collecting and arranging the engineering data, and handing over the engineering data.

This standard is under the administration of the National Energy Administration. The China Coal Construction Association is responsible for its routine management and for adjustment and modification of its partial contents, and the chief development units are responsible for the explanation of specific technical contents.

Users are requested to summarize experience and accumulate data in the course of implementing this standard, and to send relevant opinions and suggestions to the China Coal Construction Association (address: No. 21 Hepingli North Street, Beijing, postcode 100073, e-mail: gcjs@cncca.org.cn) and to Beijing Zhuye Zhiyuan Software Development Co., Ltd. (address: Room 1318, Building 4, Longqi Plaza, No. 19 Huangping Road, Huilongguan Town, Changping District, Beijing, postcode 100096, e-mail: 871702390@qq.com), for reference in future revisions.

Chief development units: Chongqing Juneng Construction (Group) Co., Ltd.; SPIC Inner Mongolia Energy Co., Ltd.; Beijing Zhuye Zhiyuan Software Development Co., Ltd.

Participating development units: China Coal Energy Group Construction Engineering Quality Supervision Central Station of the Coal Industry; Coal Industry Shaanxi Construction Engineering Quality Supervision Central Station; Coal Industry Guizhou Construction Engineering Quality Supervision Central Station; Coal Industry Xinjiang Construction Engineering Quality Supervision Central Station; Coal Industry Lingwu Mining

Area Construction Engineering Quality Supervision Station; Zhongding International Engineering Co., Ltd.; China Coal Shaanxi Zhongan Project Management Co., Ltd.; Shandong Runlu Building Materials Testing Technical Service Co., Ltd.

Chief drafting staff: Liu Peinian, Zhao Xiong, Zhangsun Xueting, Li Yongqiang, Zhao Wei, Wang Jianfeng, Liu Yingjie, Gu Yuchun, Zhang Zhishan, Pei Zhe, Liu Bo, Sun Jianxun, Kan Wentao, Zhang Jiaxun, Jiang Like, Gong Shoucai, Zuo Yonghong, Chen Tong, Yin Jianping, Aierken, Zhang Qiang, Wu Haitao, Yang Rongxin, Yi Xiangbao, Hu Baoling, Li Lianghong, Wu Huailin, Yang Tianfu, Teng Yu, Xing Fengshou, Liu Dazhi, Liu Hongliang, Li Fanfei, Li Huiyun, Ma Guichun, Jin Xin, Kan Yan, Fu Jianli.

Chief reviewers: An Heren, Sun Shouren, Shan Yixin, Deng Weiguo, Dong Shuquan, Liu Tingjian, Zhao Fengjin, Li Lihua, Han Shuqiang, Wang Xiaobo, Liu Zunjie, Zhu Jiande, Su Xiaowen, Zhao Huaidong, Zhu Wenliang, Zhu Jieli, Cheng Weichun, Wang Pengyue, Cheng Zhengjue, Wang Junhong, Wang Zhenkui, Mao Rui, Yao Ping, Xie Shupeng, Liang Aitang, Shi Yunfeng, Zhang Changshun, Tong Chunping, Liu Zhiqiang, Guo Chun, Zhou Qingguo, Cai Liming, Chi Guilin.

Structure of the Standard

Chapter 4 Classifying and Numbering begins on page 6.

4.1 Classifying (page 6).

4.2 Numbering (page 6).

Chapter 5 Construction Unit's Data Management begins on page 8.

Chapter 6 Undertaking Construction Project Unit's Data Management begins on page 9.

6.1 General Requirement (page 9).

6.2 Management Data (page 9).

6.3 Technical Data (page 10).

6.4 Quality Control Data (page 10).

Chapter 7 Supervision Unit's Data Management begins on page 11.

Chapter 8 Collecting and Arranging the Engineering Data begins on page 12.

Chapter 9 Handing over the Engineering Data begins on page 14.

Appendix A Drawing As-built Drawings (page 15).

Appendix B Methods of Folding As-built Drawings (page 18).

Appendix C Contents of Classifying and Arranging with the Data of Construction Unit (page 23).

Appendix D Contents of Classifying and Arranging with the Management Data of Undertaking Construction Project Unit (page 28).

Appendix E Contents of Classifying and Arranging with the Technical Data of Undertaking Construction Project Unit (page 30).

Appendix F Contents of Classifying and Arranging with the Quality Control Data of Undertaking Construction Project Unit (page 31).

Appendix G Contents of Classifying and Arranging with the Data of Supervision Unit (page 43).

Explanation of Wording in This Standard (page 45).

Reference Standards (page 46).

Addition: Explanation of Clauses (page 47).

Publication Information

NB/T 51051-2016 is an energy industry standard of the People's Republic of China, classified under ICS 73.020 and CCS P 00/09, with filing number J2206-2016.

The standard was issued by the National Energy Administration on 2016-02-05 and implemented from 2016-07-01.

Chief development department: China Coal Construction Association. Approving department: National Energy Administration.

The standard was approved by National Energy Administration Announcement 2016 No. 2, issued on 5 February 2016 in accordance with the Notice of the National Energy Administration on Issuing the Administrative Measures for Energy Sector Standardization (Trial) and Their Implementing Rules (Guo Neng Ju Ke Ji [2009] No. 52).

The announcement approved 99 industry standards, beginning with Alloy Steels for Pressurized Water Reactor Nuclear Power Plants - Part 32: 15CrMo Forgings for Containment Mechanical Penetrations, comprising 48 energy (NB) standards and 51 electric power (DL) standards.

In the attached catalogue of industry standards, NB/T 51051-2016 is listed as item 48, with no superseded standard and no adopted international standard, approval date 2016-02-05 and implementation date 2016-07-01.

Published by China Coal Industry Publishing House (No. 35 Shaoyaoju, Chaoyang District, Beijing, postcode 100029; website www.cciph.com.cn).

Printed by Beijing Zhengzhuang Hongwei Printing Factory and distributed by Xinhua Bookstores nationwide.
