What this standard covers

This standard specifies the spectrophotometric determination of copper sulfate compound fertilizer biuret content. This standard applies to compound fertilizers (including organic inorganic compound) biuret content. When compound fertilizers contain pesticides that affect the color reaction (such as pentachlorophenol sodium) is not applicable to this standard.

Document data

International classification (ICS): 65.060.25.

Chinese classification (CCS): B13.

Estimated length of the Chinese original: 7,715 words.
