What this standard covers

This standard specifies the terms and definitions of installation and acceptance of greenhouse steel structures, general requirements, inspection of incoming materials and finished products and on-site stacking and storage, installation and inspection of main structures. This standard applies to the light steel structure as the main multi-span greenhouse, does not apply to large-span special-shaped steel structure greenhouse. Steel structure of plastic greenhouses and solar greenhouse installation and acceptance can refer to the implementation.

Document data

International classification (ICS): 65.040.30.

Chinese classification (CCS): P35.

Estimated length of the Chinese original: 16,170 words.
