What this standard covers

This standard stipulates the terms of satellite remote sensing monitoring of corn leaf spot and small spot disease, and provides the satellite remote sensing monitoring processing flow, data source and data preprocessing, monitoring method, disease data collection and summarization of corn leaf spot and small leaf spot. content. This standard is applicable to satellite remote sensing monitoring of corn leaf spot and small leaf spot.

Document data

International classification (ICS): 65.02.

Chinese classification (CCS): B16.

Estimated length of the Chinese original: 10,110 words.
