What this standard covers

This standard specifies the amino acid automatic analyzer test method for the determination of polyaspartic acid in water-soluble fertilizers. This standard applies to the determination of polyaspartic acid as the main component of organic water-soluble fertilizers. This standard also applies to the addition of poly-aspartic acid, nitrate-free large number of elements such as water-soluble fertilizer nitrogen fertilizer determination.

Document data

International classification (ICS): 65.080.

Chinese classification (CCS): G20.

Estimated length of the Chinese original: 5,523 words.
