What this standard covers

This standard specifies the ammonia stored concentrated by centrifugation and creaming low protein natural rubber latex production requirements, test methods and inspection rules, packaging, labeling, storage and transportation. This standard applies to enzymatic concentrated by centrifugation and creaming low protein natural rubber latex, but also for the production of multiple centrifugation low protein natural rubber. This standard does not necessarily apply to other methods of production low protein natural rubber latex.

Document data

International classification (ICS): 83.060.

Chinese classification (CCS): B72.

Estimated length of the Chinese original: 6,642 words.
