What this standard covers

This standard specifies the product classification, requirements, test methods, inspection rules and signs, packaging, transportation, and storage of paper and paperboard burst testers. This standard applies to paper and cardboard bursting testers (hereinafter referred to as "bursting testers") used in the burst strength test of paper, cardboard, reconstituted tobacco and other low-strength sheet materials.

Document data

International classification (ICS): 85.100.

Chinese classification (CCS): Y91.

Estimated length of the Chinese original: 10,123 words.

Supersedes the earlier edition QB/T 1057-2004.
