What this standard covers

This standard specifies the requirements, inspection rules, marking, packaging, transportation and storage of down and feather sleeping bags, describes the corresponding test methods, and defines relevant terms and definitions. This standard applies to the design, production, inspection and sales of down sleeping bags, feather sleeping bags, composite down sleeping bags and composite feather sleeping bag products. This standard does not apply to sleeping bag products filled with a blend of down and feathers and other filling materials, nor does it apply to sleeping bag products used for specific purposes such as extreme climates and adventures.
