What this standard covers

This standard specifies the types, quality classifications, labels, and requirements for bicycle electroplating, describes the corresponding test methods, and defines relevant terms and definitions. This standard applies to the design, production and inspection of electroplating of bicycle parts (metal parts, plastic parts) defined in QB/T 1714.

Document data

Chinese classification (CCS): Y14.

Estimated length of the Chinese original: 13,113 words.
