What this standard covers

This standard specifies the classification, names of main parts and bass arrangement, requirements, recycling, inspection rules, marking, packaging, transportation and storage of air-sounding instrument accordions, describes the corresponding test methods, and defines relevant terms and definitions. This standard applies to the design, production, inspection, sales and recycling of accordions with steel reeds as the sounding body and with different structural settings of 22 keys and 8 basses or above (including 22 keys and 8 basses).

Document data

International classification (ICS): 97.200.20.

Chinese classification (CCS): Y58.

Estimated length of the Chinese original: 18,131 words.
