What this standard covers

This standard specifies the raw and auxiliary materials, sensory requirements, physical and chemical indicators, and net content of canned pig's trotters, describes the corresponding test methods, specifies inspection rules, labels, signs, packaging, transportation and storage, and gives product classifications and codes that are convenient for technical regulations. This standard applies to the production, inspection and sale of canned foods with fresh or frozen pig's trotters as the main raw material, with or without trimming, pre-cooking, frying and other processes, with or without adding one or more auxiliary materials such as pork, mushrooms, chestnuts, soybeans, etc., and then processed through seasoning, canning, sealing, sterilization, cooling and other processes.

Document data

International classification (ICS): 67.120.10.

Chinese classification (CCS): X71.

Estimated length of the Chinese original: 8,846 words.

Supersedes the earlier edition QB/T 1357-1991, QB/T 1358-1991.
