What this standard covers

This standard specifies the classification, specifications and markings, requirements, test methods, inspection rules, markings, packaging, transportation, and storage of lead brass rods and wires (hereinafter referred to as "rods and wires") for watches and clocks. This standard is applicable to daily machinery industries such as rods and wires for the manufacture of clock and watch parts, instruments and meters, and can also be used as a reference.

Document data

Chinese classification (CCS): Y11.

Estimated length of the Chinese original: 8,887 words.

Supersedes the earlier edition QB/T 1542-2005.
