What this standard covers

This standard specifies the use of high-temperature dilatometer or high-temperature microscope to determine the sintering temperature range of ceramic materials, the principle and method. This standard applies to ceramics raw materials, blanks and other sintering properties of ceramic sintering temperature range determination.

Document data

International classification (ICS): 81.060.10.

Chinese classification (CCS): Y24.

Estimated length of the Chinese original: 6,651 words.

Supersedes the earlier edition QB/T 1547-1992.
