What this standard covers

This standard specifies the chemical composition, physical properties, specification deviation, and appearance quality of ceramic saggars, describes the corresponding test methods, specifies the inspection rules, marking, packaging, transportation, and storage, and provides product classifications that are convenient for technical regulations. This standard applies to the production, inspection, and sales of high-aluminum, aluminum-silicon-magnesium, and clay-bonded silicon carbide saggars for ceramic production.

Document data

International classification (ICS): 81.060.01.

Chinese classification (CCS): Y20.

Estimated length of the Chinese original: 9,946 words.

Supersedes the earlier edition QB/T 1682-1993, QB/T 1683-1993, QB/T 1990-1994.
