What this standard covers

This standard specifies the requirements for materials, structures, appearance, etc. of stainless steel kitchenware, describes the corresponding test methods, specifies the inspection rules, marking, labeling, packaging, transportation and storage content, and gives product classifications that are convenient for technical regulations. This standard applies to the production, inspection and sale of various types of hand tools [including spoons, shovels, clamps (sub-) types, mesh screens, cutting boards and other types] made of stainless steel for cooking or mixing in the kitchen.

Document data

International classification (ICS): 97.040.20.

Chinese classification (CCS): Y73.

Estimated length of the Chinese original: 23,268 words.
