### What this standard covers

This standard specifies the terms and definitions, classification, requirements, test methods, inspection rules and marks for ceramic porcelain, packaging, transportation and storage. This standard is applicable to ceramic porcelain mainly composed of quartz, sericite (or water mica), feldspar and a small amount of kaolin, carbonate and other minerals.

### Document data

International classification (ICS): 81.060.01.

Chinese classification (CCS): Y20.

Estimated length of the Chinese original: 6,610 words.

Supersedes the earlier edition QB/T 2264-1996.
