What this standard covers

This standard specifies the sensitivity, linkage and sound-damping performance of piano action products, describes the corresponding test methods, specifies the structure, main raw materials, recycling, inspection rules, marking, packaging, transportation and storage, and gives classifications that are convenient for technical regulations. This standard applies to the design, production, testing, inspection, sales and recycling of upright piano actions and horizontal piano actions.

Document data

International classification (ICS): 97.200.20.

Chinese classification (CCS): Y58.

Estimated length of the Chinese original: 17,122 words.

Supersedes the earlier edition QB/T 2279-2013.
