What this standard covers

This standard specifies the appearance quality and physical and chemical properties of water-emulsified polyurethane finishing agents for leather making, describes the corresponding test methods, specifies the inspection rules, marking, packaging, transportation and storage, and gives product classifications that are convenient for technical regulations. This standard applies to the production, inspection and sales of polyurethane finishing agents for leather making made of isocyanate as the base material and self-emulsified.

Document data

International classification (ICS): 59.140.10.

Chinese classification (CCS): Y45.

Estimated length of the Chinese original: 10,175 words.

Supersedes the earlier edition QB/T 2415-1998.
