What this standard covers

This standard specifies the classification, requirements, test methods, inspection rules, marking, packaging, transportation and storage of low-foaming PVC sheets produced by co-extrusion foaming. This standard is applicable to rigid polyvinyl chloride low foaming sheets made of polyvinyl chloride resin as the main raw material, adding various additives and mixing, and then using co-extrusion foaming process.

Document data

International classification (ICS): 83.140.99.

Chinese classification (CCS): G33.

Estimated length of the Chinese original: 8,878 words.

Supersedes the earlier edition QB/T 2463.3-1999.
