### What this standard covers

This standard specifies the terms and definitions, requirements, test methods, inspection rules and marking, packaging, transportation and storage of welded stainless steel threaded fittings (hereinafter referred to as "fittings") for the food industry. This standard applies to the design, manufacture, use and inspection of fittings in foodstuffs that are in direct contact with foodstuffs. Also suitable for other industries have clean, hygienic requirements of the pipe joints, including convex and bushing connection size and QB/T 2467 specified the same size of stainless steel tube. The pipe fittings specified in this standard are suitable for environments where the working pressure is not higher than 1.0 MPa and the working temperature is not higher than 150 °C.

### Document data

International classification (ICS): 67.260.

Chinese classification (CCS): X99.

Estimated length of the Chinese original: 25,244 words.

Supersedes the earlier edition QB/T 2468-1999.
